Foodrecipes.com

1. My website is based on food recipes which will provide the recipe of all the foods it includes like
   a) Meal Type
   b) Dish type
   c)Ingredients etc.

Features:
1. This website, tells you about the recipe and how to make any recipe.
2. Also, provide videos link to how to prepare the recipe.
3. User can save it their recipes staps by checkbox, they can also see the best available and easy way to prepare the recipe.
4.The recipe shows the timing to take the recipes.

References:

 I have seen some websites like allrecipes.com, simplyrecipes.com etc, they have done the same as my plans to do on this site.
